

“AGEL—THE TIME IS NOW!”

After 18 successful years building our previous business, Randy Schroeder stopped us right in our tracks when he told us the compelling story of Agel and how each of the key elements of success were perfectly in place for us to become one of the first in front of the dramatic global growth he envisioned.

We had never been at the forefront of a global wave before, so this discussion about timing made us sit back and seriously consider what we had to do. We made calls around the world to the best and brightest people we knew and told them we had found “the big one!”

It's only been a few short months since we engaged in building our Agel business globally, and already our leadership team spans 10 countries! It previously took us 17 years to grow into 13 markets!

The Agel story is so compelling and our system for delivering the information is so streamlined and efficient that even those busy professionals who would normally not consider a business like this are joining!
